

FLU STATUS FOR EASTON SCHOOL DEPARTMENT

Greetings,

Happy 2010!

We have started the new year off on a healthy start.

Our absenteeism rate continues to be less than 15%, which is the state required reporting figure for the Center for Disease Control (CDC).

The student and staff's efforts continue to help us maintain our healthy school environment.

Keeping sick children isolated and home with or without a fever is very important in helping to prevent the spread of germs during this flu season.

Thank you, for your efforts as "we are all in this together" ensuring a safe and healthy school environment for our children.

Mrs. Barrett

Easton School Nurse
